

Department of Transportation & Public Facilities POLICIES AND PROCEDURES

TABLE OF CONTENTS

Updated 3/12/2012

This table of contents includes most of the department policy and procedure documents currently in effect. Some are policy documents, some are procedure documents, and some are combined policy and procedure documents. Most items listed are available on the DOT&PF website. Several dozen older documents, generally dating from the 1970s and 1980s, are still in effect but not available on the website and not represented on this table of contents. Hard copies are available in many offices. As of August 2005, Headquarters has begun a project to review and either delete or update the older documents. Any updated documents resulting from this project will be placed on the website and incorporated into this table of contents. Similarly, any other new or revised policy and procedure documents will also be placed on the website and incorporated into this table of contents. If you have questions or need additional information, please contact the administrative manager in the Headquarters Office, Division of Administrative Services in Juneau (465-3911).
