Due to the ongoing strike by employees represented by the Inlandboatmen’s Union, the Alaska Marine Highway System (AMHS) announces the following cancellations.

As of today, future vessel sailings are canceled according to the following schedule:

- MV Columbia is canceled through Wednesday, August 7. When service resumes it will be a Ketchikan to Bellingham run that day, then resumption of the normal schedule.
- MV Malaspina is canceled through Sunday, August 4. When service resumes it will be the Juneau to Petersburg run that day, then resumption of the normal schedule.
- MV Aurora and LeConte canceled through Friday, August 2. Service may resume on Saturday, August 3.
- MV Tazlina and Lituya (day boats), canceled through Friday, August 2. Service may resume on Saturday, August 3.
- MV Kennicott: remains canceled through August 7. When service resumes it will be the resumption of the normal schedule, departing from Ketchikan.
- MV Tustumena: canceled through August 7. When service resumes it will be the Kodiak to Homer run on August 7, then resumption of the normal schedule.

The above schedule takes into consideration where each ship is docked, where it should leave to according to the published schedule and gives AMHS time to get the vessels fully crewed and provisioned and the ships ready to sail.

Passenger fares for canceled sailings are being refunded. The Reservations Call Center is open Monday-Friday, from 7:30 a.m. to 4 p.m.

Due to the high volume of calls, it may take time to connect with a customer service representative.

To inquire about your refund, please call 1-800-642-0066. We appreciate your patience.

AMHS staff will never request credit card information from passengers. Refunds are automatically returned to the credit card on file.

The Alaska Department of Transportation and Public Facilities oversees 239 airports, 10 ferries serving 35 communities, over 5,600 miles of highway and 731 public facilities throughout the state of Alaska. The mission of the department is to “Keep Alaska Moving through service and infrastructure.”
