GENERAL NOTES:

1. Cable Anchor Plate may be formed in single weld or welded fabrication.

2. Anchor Cable Assembly must conform to ASTM A53 with Type II Wire Rope.

3. Provide Sleeves for Wood Posts meeting the requirements of ASTM A53 and made of 2.25-in. galvanized standard pipe. Sleeves shall be a tight press fit in post.

4. Attach radius D plates to all stop-seat guardrail sections. Bolt the D plates to the back side of the guardrail panel with the lower splice bolt nearest the P.C. of the radius.

5. Show the full bend radius, in feet, as "XX" on the radius D plate. Splices shall be etched or stamped and have a min. height of 1/2".

6. All covered hardware shall comply with the Task Force 13 (TF13) Guide to Standardized Roadside Safety Hardware online publication. Designators given when possible in parentheses.

Note: Drawing not to scale
