

## **ALASKA INTERNATIONAL AIRPORTS SYSTEM: CONNECTING NATIONS ONE STOP AT A TIME TO IMPROVE THE BOTTOM LINE**

### **ALASKA INTERNATIONAL AIRPORTS SYSTEM – Anchorage and Fairbanks International Airports**

Cargo CMGTW (pounds in thousands) 2010-2011: UP 6% (FY10 24,019,108/FY11 25,431,423)

Cargo Fuel Flowage (# of gallons) 2010-2011: UP 5% (FY10 631,907,881/FY11 662,729,580)

82% of Alaskan communities are not connected to a highway or road system.

Both Airports offer:

- Operational Location: less than 9.5 hours from 90% of the Industrialized Hemisphere.
- Operational Flexibility: liberal Cargo Transfer rules to expand carrier opportunities.
- Operational Certainty: open 24-7-365 and never been closed simultaneously.
- Operational Capacity: ILS-equipped 10,500' or larger runways to land any size aircraft, anytime.
- Operational Throughput: U.S. Customs, INS, and Agricultural inspection available 24-7-365.
- Operational Handling: private fueling and GSE equipment to handle any size aircraft.
- Operational Economy: same rates and fees for both airports.

It's no wonder 25 cargo operators serving over 40 worldwide destinations and 25 passenger operators serving in-state, domestic, and international destinations, choose the Alaska International Airports System. We offer an unbeatable combination of location, flexibility, certainty, capacity, throughput, handling and economy. Use any standard – and we'll measure up.
